## EDUCATION

---

### B.Sc Electrical and Electronics Engineering

Jan 2019 – Jul 2024

University of Ibadan

## PROFESSIONAL EXPERIENCE

---

### Software Engineer Intern

Mar 2022 – Sep 2022

Alusoft Technologies Ltd.

Ibadan, Nigeria

- Educated BootCamp trainees in web technologies including Javascript, Node.js, and Express.
- Enhanced trainee satisfaction by incorporating popular web technologies such as React, Node.js, and Git into the training program.

## PROJECTS

---

### hyoka [↗](#)

A Javascript Library for parsing and evaluating math expressions. Available on npm and can also be imported into browsers via CDNs.

- Built Expression Tokenizer and Parser.
- Designed and implemented a modified version of the Shunting yard Algorithm for the parser in Typescript.

### Gitz [↗](#)

A full-stack web app that consumes the GitHub REST API to display a user's profile and repositories and also includes search functionality. It also integrates with the Twitter API allowing users to share their projects on Twitter.

- Built the server-side app with Node(Express).
- Built the user interface of the web application with ReactJS.
- Implemented login with the GitHub OAuth workflow.
